

## **Getting to the STP Start Line – Detour Routes**

Please allow for some extra time to get to the start line due to this construction

Due to the demolition of the NE 45<sup>th</sup> street viaduct riders will have to take one of these detour routes to get to the STP start line. You can find full details on this major construction project here: <http://www.seattle.gov/transportation/45th-bridge.htm>

### **Getting to the STP start line from I-5 north bound or from SR520**

From I-5 take the SR520 exit just north of downtown Seattle. Once on SR520 then take the first exit off of SR520 to Montlake Blvd. at this intersection head north – left at the light – onto Montlake Blvd. Cross the Montlake Bridge and stay right as you pass Husky Stadium. Caution as you are now approaching riders exiting the STP start line. Continue straight to the north entrance. At the next light take a right on Walla Walla and then a quick right into the lot. Once in the lot follow the signs to parking (north end of lot) and drop off (south end of lot).

### **Getting to the STP start line from I-5 south bound**

Note this route does take you through some residential areas. Chances are this will be the less traveled route.

From I-5 south bound take exit 171 and stay left onto NE 70<sup>th</sup> St. follow back over I-5 and take a right on Roosevelt Way NE. At NE 65<sup>th</sup> St. take a left. Stay on 65<sup>th</sup> for about 1 mile then take a right on 35<sup>th</sup> Ave NE. follow this as it veers right onto NE 45<sup>th</sup> Pl. At the light at the big 5 way intersection take a left onto NE Mary Gates Memorial Dr. (note Google maps list this street as Union Bay Pl NE). Go one block and take your first right on Clark Rd. Follow this straight into to the lot. Once in the lot follow the signs to parking (north end of lot) and drop off (south end of lot).
